

SIMPLY SAFE SMART CLASS

Simply Safe

Making Education
Innovative

AGENDA

Company Profile

We will like to tell you little about ourselves, who we are and what we do.

Simply Safe Smart Class

Let us tell you about our flagship product line for School administration

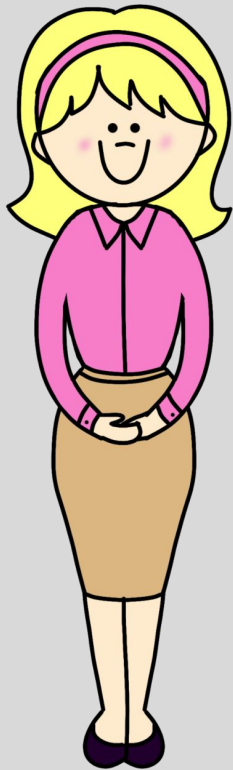

Product Comparison

Comparison of our own Products side by side along with some others

SIMPLYSAFE SMART CLASS

- Smart class is an interactive and innovative method of stirring the motivation of learning in students.
- Modern technology in classes has proved to be an efficient learning technique.
- The tools involved in smart classes are user friendly and allow teachers to customize the environment beyond the text books

SIMPLY SAFE SMART CLASS CONTENT

Simply Safe's content for smart class room is available from classes 1 to 12 and is packaged in such a way as to make it easy to handle and play in digital classroom

Interactive nature of the content is what make our product unique.

The content doesn't restrict a teachers capacity to teach which is usually the case with other Smart Class Hardware. Moreover, it allows the teacher to have an edge over the subject.

The contents can be mixed and adjusted by teachers according to the class's need.

The content is high quality. It is designed in a student friendly manner and as per the current requirements of Indian Schools.

Simply Safe's content for smart class room is available from classes 1 to 12 and is packaged in such a way as to make it easy to handle and play in digital classroom

- In-built speakers for perfect sound

SIMPLY SAFE SMART CLASS

We at Simply Safe use technology which is simple and which can cater to multiple functionality.

Generally, for smart class, a screen is required which is costly but, with our technology any projected screen can be converted into a smart board.

Additionally, there is no extra cost for Touch Pens. The projected Screen can be easily managed by finger touch.

All the functionalities of a regular PC can be explored with the Simply Safe Smart Class Device which is unlike other Smart Class Hardwares. The Device is not restricted only to perform as a Smart Class Hardware.

Difference between Current & Simplysafe Smart Class

Features	Current Smart Class	Simplysafe Smart Class
Interactive Board	Required	Not Required (Any White-Board)
